

APACHE portal movable

Cargo measurement, always there where you need it to be

- Movable system for the flexible use in changing positions or different locations, always there where it is needed the most
- By simply folding up the beams equipped with wheels, the device can be disassembled or pushed to its new position in no time
- Automatic measurement of cargo as well as an optional weighing and documentation with a camera
- Installation – Connection – Measuring and if applicable weighing
- 2 laser scanners on a motorized measuring beam detect the object
- The object is placed within the measuring zone and the measurement is started by a barcode scan or manually
- Transfer of the data to the customer data base – length, width, height, photo and weight are automatically transferred to your system through defined interfaces
- The entire measurement data is legally relevant due to the conformity assessment of the measurement system and can therefore be used for billing purposes
- The detection of freight that has been underdeclared leads to a quick amortisation of the investment

Technical data

Product Dimensions

360 (460) cm x 330 cm x 340 cm

Maximum package size*

250 cm x 250 cm x 260 cm

Upon request: 250 cm x 350 cm x 280 cm

Division*

2 cm / 2 cm / 1 cm

Minimum package size*

20 cm x 20 cm x 10 cm

Movement speed

ca. 0,4 m/sec.

Platform Scale

200 cm x 200 cm, max. 2.000 kg (Upon request other dimensions and ranges are possible)

Power Requirements

200-250 VAC 16 A

Laser Safety Class

1

(safety measures are unnecessary even in case of continuous irradiation)
