

Measuring and weighing of arbitrarily shaped objects for master data acquisition and freight measurement

- Volume and weight determination as well as photo ceation
- Complete and compact unit for measuring and weighing incl. hand-held barcode scanner
- Measurement with innovative infrared light grid technology
- Measurement of cubic, but also irregularly shaped objects
- Transfer of data to customer database - length, width, height, photo and weight are automatically transferred to your system via defined interfaces
- Operation via plug, but also battery system possible - 24/7 shift capability (CubiCart necessary)
- Expandable with CubiCart, the high-quality mobility solution for the CubiScan 325
- No prescribed start and stop position of the gate

Technical Data

Measure Area*

90 cm x 60 cm x 60 cm

Scaling*

0,1 cm / 0,1 cm / 0,1 cm

Minimum package size*

2 mm x 2 mm x 2 mm

Maximum package size

See Measure area

Weight capacity

0,002 kg to 25 kg

Measuring time

3-7 Sekunden

Power requirement

100-240 VAC, 50-60 Hz

*L x W x H
